A TRULY UNIQUE NATURAL DIAMOND

UNIQUE IDENTIFIER

NATURAL DIAMONDS

NATURAL DIAMONDS ARE SOME OF THE RAREST TREASURES ON EARTH, EACH ONE HOLDING AN EXTRAORDINARY TALE OF TIME AND TRANSFORMATION.

They are one of the closest things to eternity we can hold in our hands, a piece of Earth's deep history and silent witnesses to **the passing of time**.

ORIGIN BY DE BEERS GROUP

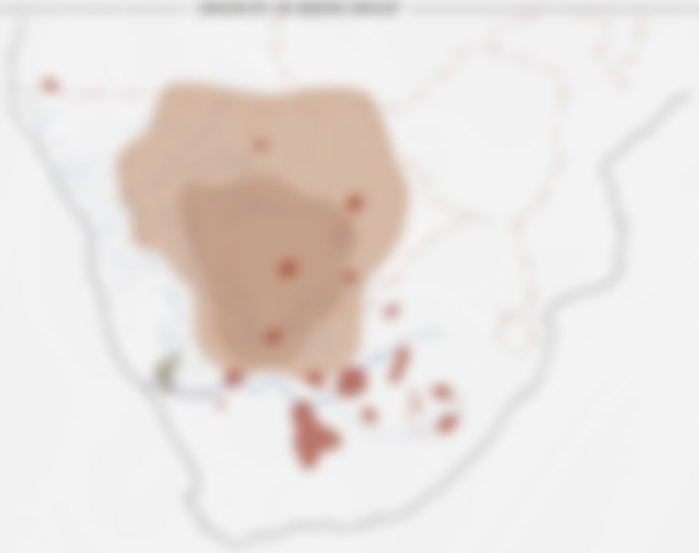

UNIQUE AS MINE brings trust, value
and transparency to the diamond world.

Every Origin diamond has an Origin Story
that is registered on Tales, the world's leading
digital platform for tracing natural
diamonds from their source.

This gives you the opportunity to find detailed,
treasured information about your diamond's
and its extraordinary journey from the
depths of the Earth to reach you.

YOUR DIAMOND WAS DISCOVERED IN BOTSWANA

ANSWERS WE WERE ASKED

Diamonds are found in a volcanic rock called kimberlite. They have been discovered in several countries worldwide. Your very own diamond is from the beautiful country of **Botswana**.

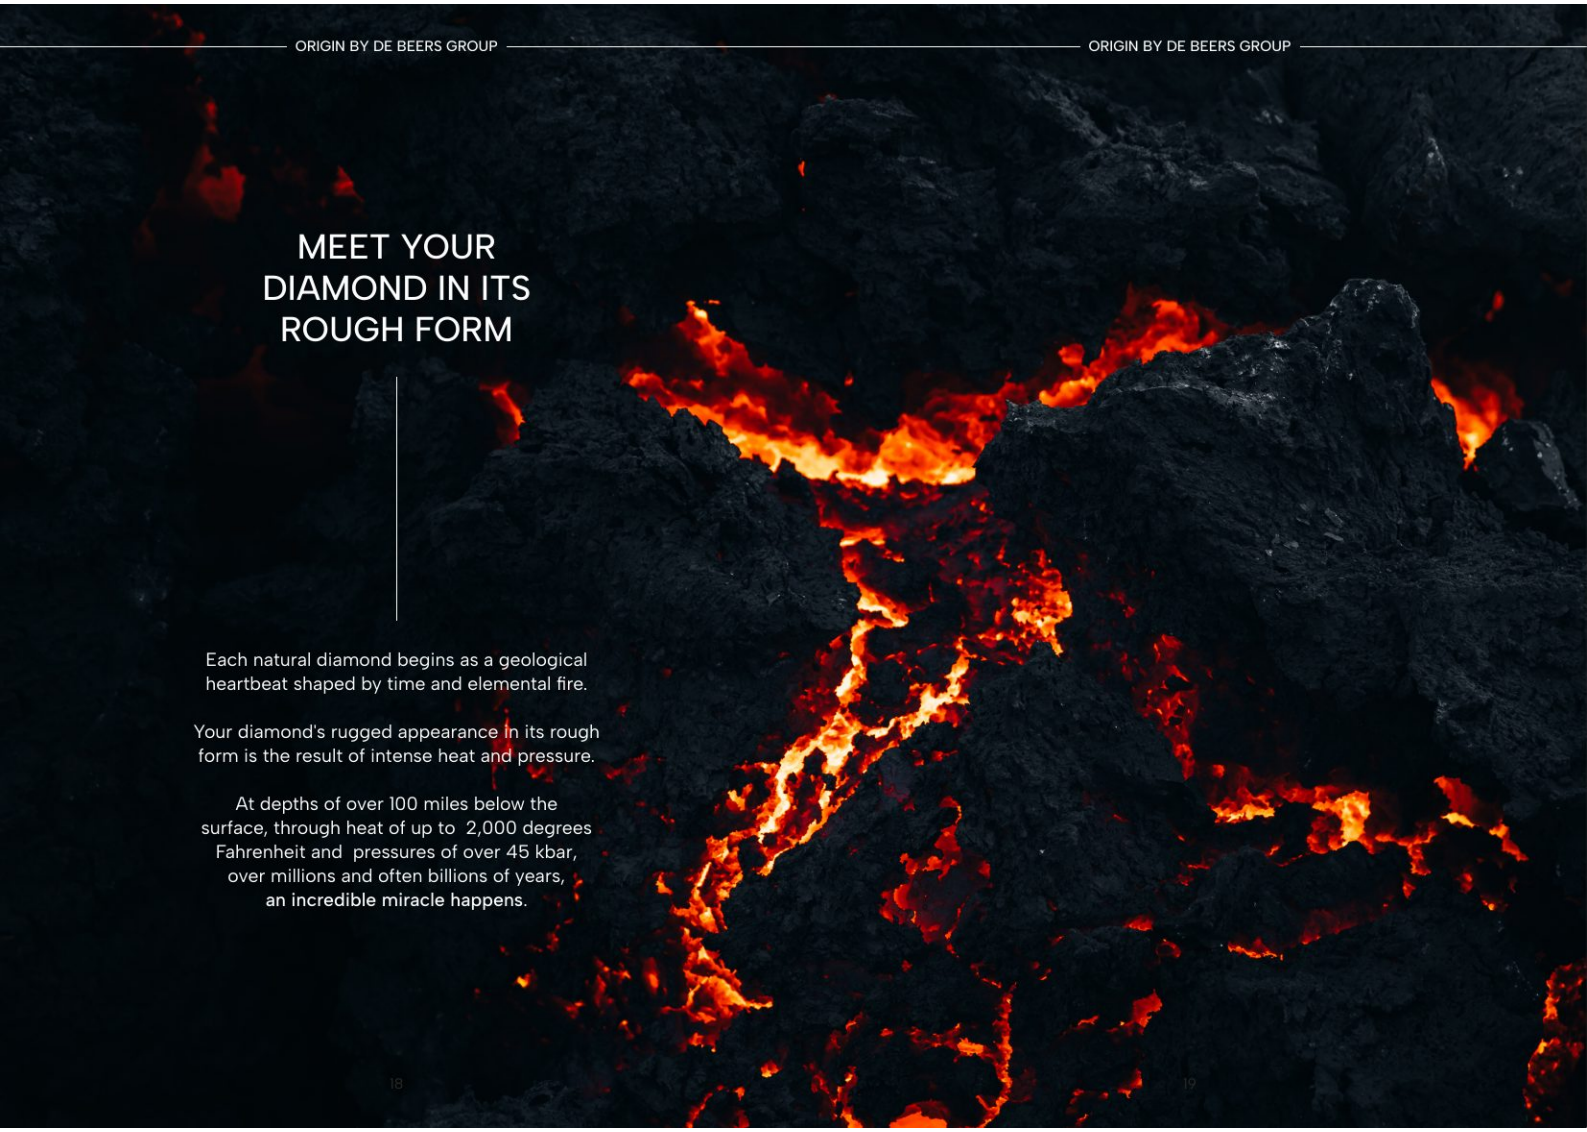

ORIGIN BY DE BEERS GROUP

MEET YOUR DIAMOND IN ITS ROUGH FORM

Each natural diamond begins as a geological heartbeat shaped by time and elemental fire.

Your diamond's rugged appearance in its rough form is the result of intense heat and pressure.

At depths of over 100 miles below the surface, through heat of up to 2,000 degrees Fahrenheit and pressures of over 45 kbar, over millions and often billions of years, **an incredible miracle happens**.

YOUR DIAMOND'S CHARACTER

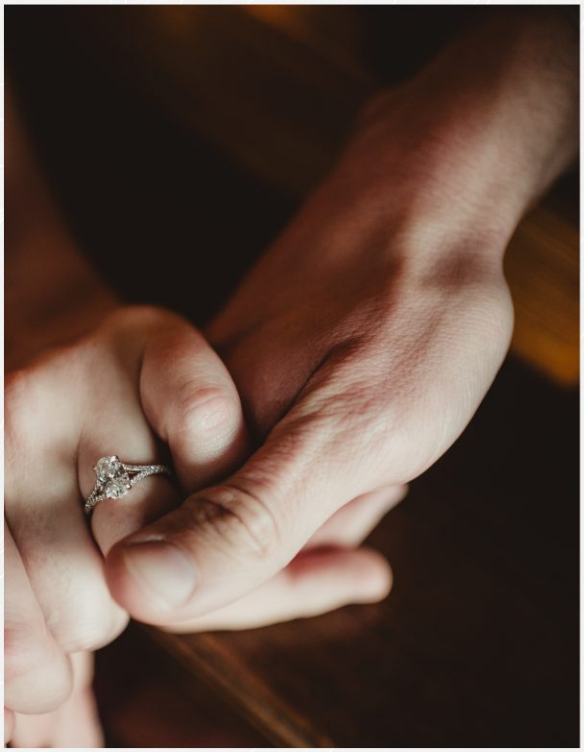

Much like a fingerprint, every diamond has a natural pattern telling a different story, each one is unique and no two are alike.

Each diamond has a name, a place, a truth.

Just like you.

ORIGIN BY DE BEERS GROUP

The clarity grade of a diamond indicates an absence or presence of birthmarks in a natural diamond.

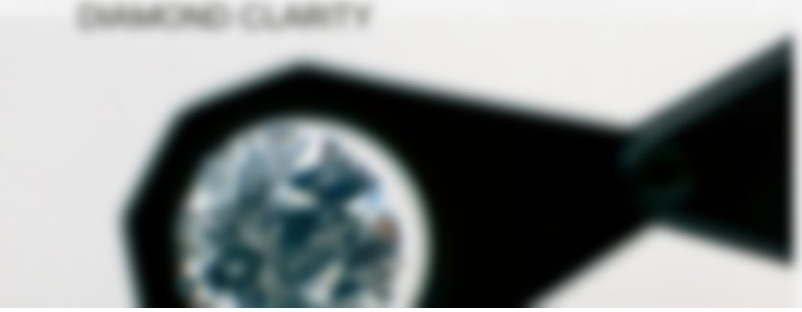

These are features acquired during its epic formation and journey, such as trapped minerals like amethyst. Any fractures caused by temperature changes or tiny clouds made of thousands of microscopic diamond crystals.

Birthmarks define your diamond's landscape, and grade it its unique character.

Your diamond's clarity grade is

DIAMOND CLARITY

ANGELIC 1ct BLACK ONYX

DIAMOND CUT

Every ORIGIN Six Waves Shape Diamond is crafted with unmatched artistry, to the highest standards of precision.

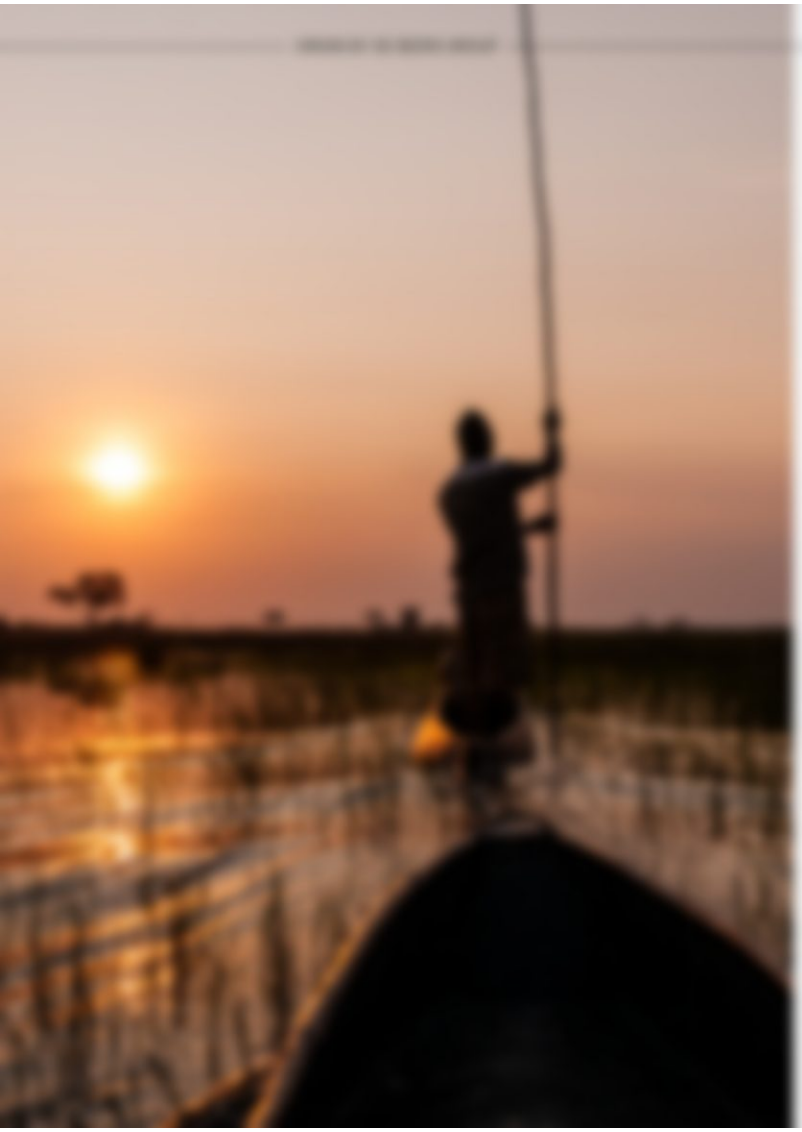

Your diamond has been cut for excellent symmetry.

Folding along vertical and horizontal axes shows the degree to which facets mirror each other, reflecting light and delivering exceptional sparkle.

Your diamond's cut grade is

III.
